

Hiltz will move you with care—and speed

"Forget the fuss and leave the moving to us."

Sound familiar? Greyhound, you say. That's right, but in Gloucester when you say Greyhound, you mean Robert C. Hiltz Moving and Storage, the largest and the oldest moving company in the area.

Hiltz the Movers have been in the household moving business for over 40 years. Better said, the household moving business has been in the Hiltz family for that long, and 40 years from father to son is a tradition that you can count on.

Robert Hiltz Jr. knows what those little special items you have around the house mean to a family — the family heirlooms, the first chair you ever bought, the mirror you found at an auction and got at a steal, the high chair whole generations have been fed in. He knows they require extra care in handling.

He also knows that his men are the most careful in the trade.

And if you've never moved before — or there is great urgency, you have to be at your new home fast — Hiltz knows how to arrange all the details so you need never have a moment's

worry.

And remember, if you can't take everything with you but you don't want to get rid of it now — or ever, Hiltz has a large warehouse where your goods can be stored at a reasonable cost.

So when the time comes for you to pick up and go, dial 283-2520, ask for Bob Hiltz, tell him what you need done — and relax. San Francisco, New York, Chicago, Palm Beach, here you come, and Hiltz will get you there.
